

# Vaibhav Deshpande

Currently working as a **Lead Designer and WordPress Developer** at Sigmaflux. Experienced in developing revenue-generating websites using the WordPress, including e-commerce platforms. Skilled in designing impactful web interfaces and graphic assets that leave a lasting impression.

Have **actively trained** juniors and new joiners on WordPress, Content Management System (WordPress, Drupal, Joomla etc) and design tools, fostering team growth and knowledge sharing. Seeking opportunities to contribute my expertise in CMS-based development and design to innovative, result-driven projects.

## Personal Details

**Date of Birth:** 31-05-1993

## Work Experience

### Lead Designer & WordPress Developer – Sigmaflux, Thane

April 2023 – Present

Contributed as a key member of the design and development team, working on impactful WordPress projects and client-facing digital solutions.

- Developed responsive, revenue-generating websites using WordPress, including e-commerce platforms.
- Trained juniors and new joiners on CMS and design tools, fostering team growth and collaboration.
- Optimized clients’ LinkedIn profiles to improve visibility and engagement.
- Designed visually compelling assets and user interfaces aligned with client goals and brand identity.
- Created and managed WhatsApp marketing campaigns and chat flows to enhance customer engagement.

## **Associate Graphic Designer – Affinity Express, Pune (WFH)**

February 2022 – March 2022

Worked on graphic design projects for Vistaprint (US and UK), focusing on high-volume print design while maintaining quality and meeting strict deadlines.

- Designed a wide range of print materials, including business cards, brochures, flyers, stickers, labels, menu cards, and invitation cards.
  - Ensured consistency and accuracy by maintaining detailed records of work units and shift output.
  - Delivered high-quality designs while working under tight deadlines and bulk production environments.
  - Adhered to brand guidelines and quality standards across all assigned projects.
- 

## **Creative Designer – R-Tech Network & Security Solutions**

October 2021 – January 2022

Worked closely with the marketing team to deliver creative design solutions aligned with brand identity and client requirements.

- Designed the company's official logo using Adobe Illustrator.
  - Created brochures for various training courses and services offered by the company.
  - Designed and modified jersey artwork for a client project.
  - Developed social media graphics to boost online presence and engagement.
  - Maintained consistency with the company's branding and design guidelines.
  - Collaborated with the Marketing Head to deliver high-impact design solutions.
  - Met tight deadlines while managing multiple design tasks efficiently.
- 

## **Freelance Graphic Designer**

August 2017 – June 2021

Collaborated with various clients to deliver customized branding and digital design solutions tailored to their business needs.

- Designed brand collaterals including logos, brochures, and social media posts.
  - Created short promotional videos for digital campaigns.
  - Ensured timely delivery of all projects while maintaining high quality standards.
  - Communicated effectively with clients to understand their vision and translate it into visual designs.
-
